ZEN CLASS 1 ACTIVITIES

Topic 1 : Write a blog on Difference between HTTP1.1 vs HTTP2

Topic 2 : Write a blog about objects and its internal representation in Javascript

1) Write a blog on Difference between HTTP1.1 vs HTTP2

HTTP 1.1	HTTP 2
It cannot handle Heavy loads in websites	It can heavy loads in the websites
Rendering speed was very low compared to HTTP 2	Rendering speed was very fast nearly 6 times faster that HTTP 1.1
Cannot handle multiple requests in Same connection	It can handle multiple requests in same connection

2) Write a blog about objects and its internal representation in Javascript

A JavaScipt object is a collection of named values having state and behavior (properties & methods)

Example : Person, Car, Pen, Bike, Personal Computer, Washing Machine etc.

Take the case of cars.

All cars have the same properties, but the property values differ from car to car. All cars have the same methods, but the methods are performed at different times.
